City Council Report Nov 4th 26

1. Got holes drilled so trees could be planted at Folf Course.
2. Recycle pond at water plant was drained and cleaned.
3. For alley cleanup we took out around 20 tons of garbage and appliances to the landfill.
4. Had a visit from the Dept. of Labor and Industry. We had one finding being a propane tank sitting on shop floor not housed correctly.
5. Been fielding questions from engineers on wastewater plant project and on how we would like to move forward.
6. We received a shipment of dumpsters, so we will be refurbishing dumpsters during winter.
7. During the bad bouts of weather, we have started to do maintenance on equipment and vehicles.
8. Will be running street sweeper till the weather turns.
9. Mayor, Keith, and I plan on attending NCRWA open house at water plant on November 17th.
10. Been working with state on surveys at the new Industrial Park where they are planning a new shop.
11. Had a blower go down at wastewater plant, we removed motor and took it to machine shop for repair.
